285. AJ Parnell, AJ Cadby, OO Mykhaylyk, ADF Dunbar, PE Hopkinson, AM Donald and RAL Jones - 2011. *Macromols* 44, 6503- 8. The Nanoscale Phase Separation of P3HT PCBM Thick Films as measured by Small Angle X-ray Scattering.
286. PA Staniec, AJ Parnell, ADF Dunbar, H Yi, AJ Pearson, T Wang, PE Hopkinson, C Kinane, RM Dalglish, AM Donald, AJ Ryan, A Iraqui, RAL Jones and DG Lidzey - 2011. *Adv Energy Mat* 1 499-504. The nanoscale morphology of a PCDTBT:PCBM photovoltaic blend.
287. Smith M, Fodera V, Sharp JS, Roberts CJ and Donald AM – 2012. *Coll and Surfaces B Biointerfaces* 89, 216-222. Factors affecting the formation of insulin amyloid spherulites.
288. AJ Pearson, PE Hopkinson, T Wang, PA Staniec, RAL Jones, AM Donald and DG Lidzey – 2012. *Macromols* 44, 1499-1508. Rationalising the thermal annealing temperature for P3HT:PCBM blends.

289. L Staniewicz, AM Donald, DJ Stokes, N Thomson, E Sivaniah, A Grant , D Bulmer and CM Anjam Khan – 2012. *J Micros* 237-246. The application of STEM and controlled dehydration to bacterial systems using ESEM.
290. A Aufderhorst- Roberts, W Frith and AM Donald – 2012., *Soft Matter* 8 5940-5946. Micro-Scale Kinetics and Heterogeneity of a pH Triggered Hydrogel.
291. D Cannon, Danielle and AM Donald – 2013. *Soft Matter* 9 2852-2857. Control of liquid crystallinity of amyloid-forming systems.
292. T Wang, NW Scarratt, H Yi, ADF. Dunbar, AJ Pearson, DC Watters, TS Glen, AC Brook, J Kingsley, AR Buckley, MWA Skoda, AM Donald, RAL Jones, AIraqi and DG Lidzey -2013. *Adv Energy Mat* 3 505-12. Fabricating high performance, donor-acceptor copolymer solar cells by spray-coating in air.

## BOOKS

AM Donald and AH Windle, 1992. "Liquid Crystalline Polymers" in the CUP Solid State Physics Series .

AM Donald, S Hanna and AH Windle, "Liquid Crystalline Polymers" , CUP 2nd edition 2006.

AM Donald, PJ Frazier and P Richmond editors. 'Starch: structure and function". RSC, 1997.

TL Barsby, AM Donald and PJ Frazier, editors. 'Starch Advances in structure and function". RSC, 2001.

## CHAPTERS FOR BOOKS AND REVIEW ARTICLES

1. A.M. Donald & A.H. Windle - 1985, "Recent Advances in Liquid Crystalline Polymers", Applied Science, Chapter 12. Electron microscopy of thermotropic copolyesters.
2. AM Donald, AC Smith and SC Warburton - 1993 in "The glassy state in foods", ed JMV Blanshard and PJ Lillford, Nottingham University Press, 375-393. Physical changes consequent upon the extrusion of starch.
3. AM Donald -1994. "Failure Mechanisms in Polymeric Materials" Chapter 1 in "Rubber Toughened Engineering Plastics", ed AA Collyer, Chapman and Hall.
4. AM Donald -1994 Reports on Progress in Physics 57 1081-1135 . Physics of Foodstuffs.

5. AM Donald, CM Durrani, RAL Jones, RH Tromp and AR Rennie 1996 "Biopolymer Mixtures", ed JM Mitchell and S Harding, 99-116. Physical methods to study Phase Separation in Protein/ polysaccharide Mixtures.
6. L Sun, CM Durrani and AM Donald, Gums and Stabilisers in the Food Industry, 1996, OUP, eds GO Philips, PA Williams and DJ Wedlock, 424-432. FTIR Methods for the Study of Protein-Polysaccharide Mixtures.
7. RE Cameron and AM Donald - Procedures in Electron Microscopy Ch 14 module 10. Minimising sample evaporation in the environmental scanning electron microscope.
8. AM Donald 'Crazing' in "The Physics of Glassy Polymers" 2nd edition 1997, eds RN Haward and RA Young, 295-342 Chapman and Hall.
9. AM Donald 'Crazing' in "Performance of Plastics", ed W Brostow, to appear in 1999.
10. AM Donald, S Kitching, P Meredith and C He - 1998. Colloidal Systems ed RH Ottewill and AR Rennie, Kluwer, 41-50. Structural Studies of concentrated dispersions.
11. JL Keddie, P Meredith, RAL Jones and AM Donald -1998. Colloidal Systems ed RH Ottewill and AR Rennie, Kluwer, 51-60. Film Formation of Latices.
12. AM Donald, TA Waigh, PJ Jenkins, MJ Gidley, M Debet and A Smith, in Starch: structure and function. eds AM Donald, PJ Frazier and P Richmond, RSC 1997, 172-179. Internal structure of starch granules revealed by scattering studies.
13. AM Donald –1999. Application of X-ray scattering to the study of the mechanical properties of polymers, Mechanical Properties and Mechanical Testing of Polymers, Chapman and Hall, ed GM Swallowe, 278-80.
14. AM Donald –1999. Application of electron microscopy to the study of the mechanical properties of polymers, Mechanical Properties and Mechanical Testing of Polymers, Chapman and Hall, ed GM Swallowe 49-51.
15. AM Donald -1998 Current Opinion in Colloid and Interface and Science 3 143-8. Environmental scanning electron microscopy for the study of 'wet' systems.
16. AM Donald and BL Thiel - 1999. NATO-ASI proceedings (Erice): Impact of electron and scanning probe microscopy on materials research, eds D Rickerby et al, 1999, 415-44. ESEM image contrast and applications to wet organic materials.
17. AM Donald and BL Thiel, - 1999. UK/Indo Forum on Structure and Dynamics in the Mesoscopic Domain, ed M Lal, RA Mashelkar, BD Kulkarni and VM Naik, Imperial College Press, 1-10. Environmental SEM application in Polymers and Colloids Research.

18. AM Donald - 1998. *Materials World*- 6 399-401. Taking SEM's into a new environment.
19. AM Donald –1999. *Fibre Diffraction Review* 8 31-37. Unravelling starch granule structure with small angle scattering.
20. AM Donald, PA Perry and TA Waigh. *Starch 2000*.The impact of internal granule structure on processing and properties.
21. CP Royall, DJ Stokes, IM Hopkinson and AM Donald *Confocal Microscopy and Environmental SEM for Polymers* *Polymer News*, 26 (2001) 226-233.
22. M Warner, SF Edwards, BL Thiel and AM Donald, *Supramolecular and Colloidal Structures in Biomaterials and Biosubstitutes*, eds M Lal, PJ Lillford, VM Naik and V Prakash. Imperial College Press/Royal Society, 2000. 197-213. The extraction of liquids from cellular solids - theory and experiment.
23. IC Bache, DJ Stokes, BL Thiel and AM Donald,, *Supramolecular and Colloidal Structures in Biomaterials and Biosubstitutes*, eds M Lal, PJ Lillford, VM Naik and V Prakash. Imperial College Press/Royal Society 2000. 86-95. Applications of ESEM to Biomaterials.
24. 3 contributions to the Elsevier Encyclopaedia of Materials: Science and Technology on Food Gels, Liquid Crystalline Polymers in Nature and Polysaccharide Crystallisation.
25. AM Donald - 2001 *Cereal Chem* 78,307-14. Plasticisation and Self Assembly in the Starch Granule.
26. CP Royall and AM Donald , in *Film Formation and Coatings*, ed T Provder and MW Urban, ACS Symp Series 790, 2001. Confocal microscopy and environmental SEM applied to matting water-based lacquers.
27. AM Donald, in *Food Colloids, Biopolymers and Materials*, eds E Dickinson and T van Vliet, RSC 2003, 245-55. In situ deformation of hydrated food samples.
28. FS Baker, J Craven and AM Donald, in *Techniques for Polymer Organisation and Morphological Characterisation*, ed RA Pethrick and C Viney, Wiley 2003 111-43.
29. AM Donald, 2003. *Nature Materials* 2003, 2 51-6. The use of environmental scanning electron microscopy for imaging wet and insulating materials.
30. AM Donald, 2003 in 'Starch in Food; Structure, Function and Applications' ed A-C Eliasson, Woodhead Publishing. *Understanding Starch Structure and Functionality*.
31. AM Donald, *Environmental Scanning Electron Microscopy (ESEM) in 'Tissue Engineering using Ceramics and Polymers'* ed J Gough, Woodhead Publishing 2007, pp204-225.

32. P Cicuta and AM Donald – 2007. *Soft Matter*, **2**, 1449 – 1455. Microrheology: a review of the method and applications.
33. AM Donald - – 2007. *J Poly Sci Phys Ed* 45, 3257-62. Why should polymer physicists study biopolymers?
34. AM Donald – 2008. *Soft Matter* **4**, 1147 - 1150. Aggregation in beta lactoglobulin.
35. KI Dragnevski and AM Donald – 2008. Applications of environmental scanning electron microscopy (ESEM) in the study of novel drying latex films. EMAG: Electron Microscopy And Analysis Group Conference 2007 Book Series: Journal Of Physics Conference Series 126, 12077-12077.
36. J Benawra, AM Donald , M Shannon - 2008. Developing dual beam methods for the study of polymers. Electron Microscopy And Analysis Group Conference 2007 Book Series: Journal Of Physics Conference Series 126, 12079-79.
37. AM Donald, MRS Bulletin Sept 2010. Characterising Soft Matter.
38. JE McGregor, Z. Wang, C. French-Constant and AM Donald – 2010. Microscopy of myelination in "Microscopy: Science, Technology, Applications and Education" Vol 2 1185-1195 Eds: Antonio Méndez-Vilas and Jesús Díaz Álvarez, Formatex Research Center
39. L Nuccio, V Fodera, FL Pratt, AM Donald and AJ Drew 2011. *European Biophysics Journal with Biophysics Letters* 40 Supp 1 183-183. Studying electron transfer in oligopeptides through muSR
